

NOTICE TO LANDOWNER

On August 20, 2013, the Illinois Commerce Commission ("Commission") entered an Order in Docket No. 12-0598 granting Ameren Transmission Company of Illinois ("ATXI") authority under Section 8-406.1 of the Public Utilities Act ("Act") to construct, operate, and maintain a new 375-mile long 345-kilovolt electric transmission line running generally from the Mississippi River near Quincy, Illinois to the Indiana border, just south of Terre Haute, Indiana. A segment of the transmission line route approved by the Commission runs between electric substations in Meredosia and Pawnee, Illinois. On September 18, 2013, the Commission granted a September 5, 2013 request from Andrew and Stacy Robinette to reconsider a relatively small portion of this segment of the transmission line route in an area southwest of Waverly, Illinois. The Robinette's "Application for Rehearing" is available on the Commission's e-Docket website (<http://www.icc.illinois.gov/docket/Search.aspx>) under Docket No. 12-0598.

The enclosed notice of a prehearing conference is being mailed to you because you have been identified as an owner of property that may be affected by the outcome this proceeding evaluating the Robinette's proposed route modification. Illinois law allows the Commission only 150 days to reconsider its earlier conclusion on this portion of the transmission line route. Therefore the deadline in this matter is February 15, 2014. Scheduling to address the Robinette's proposed route modification will be discussed at the prehearing conference described in the attached notice. No witness testimony will be taken on that date.

If the Commission modifies the transmission line route in accordance with the Robinette's proposal and the proposed facilities are to be constructed on a route on your property, ATXI will attempt to negotiate acquisition of certain property rights from you. If after reasonable attempts to do so, no arrangement can be made between you and ATXI, ATXI may file a petition with the Commission seeking authority to obtain certain property rights from you through eminent domain so that it may construct the proposed facilities. You should understand that if your property lies in the path of the proposed facilities and ATXI at some later date files a petition with the Commission seeking eminent domain authority to obtain property rights from you, the propriety of the route for the facilities will no longer be a matter to be contested.

You are invited to attend the prehearing conference should you desire. Participation by telephone may be available. Any person who wishes to present evidence regarding the Robinette's proposed route modification must intervene, or be called as a witness by another party, and present that evidence in this proceeding. The time to present such evidence will be determined at the prehearing conference described in the attached notice. If you have any questions concerning this matter, please address any correspondence to:

Elizabeth A. Rolando, Chief Clerk
Illinois Commerce Commission
527 East Capitol Avenue
Springfield, IL 62701
